\(^1\)The option to take courses at the high school is only available if the high school has partnered with a college or university to offer college courses at the high school.
How can students participate?

Step 1: Eligibility

Students must be “eligible” for College Credit Plus participation based on assessment exam scores.
Students’ scores must show that they are ready for “college-level” courses in at least one subject area on an exam such as ACT, SAT, Accuplacer, ALEKS, PlaceU, or MapleSoft.

Each college/university may have different exam requirements.
Colleges and universities will review students’ scores using statewide standards.

If a student’s scores are not “college-level,” other conditions may be considered depending on the exam scores and if the student has:

- Overall high school GPA of at least 3.0 or
- Recommendation form/letter (from school counselor, principal, or career-technical advisor)
Step 2: College Admission

- Students must apply for admission
- Contact the college to learn about their requirements, processes, paperwork, and deadlines
- Colleges have the final decision on student admission
How can students participate?

Step 3: Course Registration

If the student is considered eligible and has been admitted to the college, then the college will discuss course options with the student, based on assessment scores, prerequisites, and other requirements.
What courses can a student take?

CCP courses can satisfy high school graduation requirements

- **School counselors** can help students understand graduation requirements and CCP course substitutions
- Some high schools have more requirements for graduation than the state minimum
- A student should connect with his/her high school counselor BEFORE registering for CCP courses.
College advisors will help students know which courses they can take, based on:

- Assessment scores
- Course prerequisites
- Course eligibility rules
Students must complete their first 15 credits in Level I courses, which include:

- Transferable courses.
- Courses in IT, Computer Science, Anatomy & Physiology, foreign language.
- Courses that are part of a technical certificate.
- Courses that are part of a 15- or 30-credit pathway.
- Courses in study skills, academic or career success.
Colleges must post their Level I courses – see website for details.

Once a student completes the First 15 credit hours in Level I, he or she can move to Level II courses, which are any other allowable college courses for which a student meets the prerequisites.
Non-allowable courses include:

- Private applied courses with one-on-one instruction (such as music lessons)
- Courses with high fees
- Study abroad courses
- Physical education courses
- Pass/Fail graded courses
- Remedial courses or religious courses.

Graduation Requirements

- Students may take College Credit Plus courses in subject areas that will satisfy graduation requirements
- **Students must work with school counselors to ensure they are meeting any mandatory testing or other high school graduation requirements**
Students may be enrolled in up to 30 semester credit hours per year, including high school courses:

\[ 30 - (\text{secondary school units} \times 3) = \text{max CCP credits} \]

The maximum number of credits allowable over the life of the program is 120
How many classes can students take?

If a student enrolls in more than 30 credit hours for the year, the school will discuss with the student whether to:

- Drop the course or
- Pay for the entire course (including tuition, fees, books) at the college’s standard rates
